A Master Specialist

Whose claims are moderate, whose successes are the marvel of the medical profession, who does not claim to cure all cases, but cures all he takes, whose charges leave no excuse for sickness in any deserving person, even the poorest, and whose honesty and fair dealing in business methods are emulated by the business

It is singularly unfortunate that so many physicians who advertise claim more than their records warrant. People who have taken these claims in good faith and have been misled into taking useless drugs and lost both money and faith are especially the ones to whom we hold out hope for the future, since we invite the most lifficult and chronic cases which have met failure and disappointment by other systems of treatment. Dr. Tomson will cure you by his NEW METHOD TREATMENT if he accepts your case. At any rate, it will cost you nothing to call and consult this master specialist, and he will give you a frank and valuable opinion of your case after giving you the benefit of the most exhaustive and thorough examination which his complete office equipment of modern instruments of exact science allows, The doctor's restless spirit of investigation compels him to make a special study of every case coming under his observation. Even the apparently simple and harmless cases and those exhibiting the mildest symptoms, as well as cases which seem hopeless enlist his superbly trained clinical powers, and none is ever dismissed until he has determined the exact conditions which govern it and explained to the patient
